

## Membership Benefits

### Education

- One free pass to the IEA Annual Training Symposium and Conference (\$625 value)
  - Education, training, networking, continuing education credits, and exposure to and interaction with regulators and legislators in a neutral environment
- Complimentary bi-monthly membership luncheons featuring guest speakers from the regulatory and policy making arena
  - Members are able to make connections with speakers and each other by sharing and asking questions in a private, IEA-only group setting
- Access to monthly IEA Committee meetings, including Air, Water, HazMat, and Sustainability
  - Guest speakers keep members up to date on existing regulations and pressing new issues
  - Members determine the agenda, can suggest topics or guest speakers of interest
  - Associate members gain exposure by presenting on topics and lending their expertise
  - Members-only tours of companies and projects throughout the region
  - Remote webinar participation available
- Bi-weekly e-newsletter
  - Updates on state and local legislation
  - Regulatory changes
  - Job opportunity listings
  - Meeting notices and updates from regulatory groups and events throughout the community
- Timely updates on regulatory changes proposed for California / Southern California area businesses
  - CEO's "Qwik Notes" provide real time updates on activities in Southern California and Sacramento

### Advocacy

- Representation in Sacramento, San Diego, and Los Angeles before regulatory and legislative bodies on issues of importance to IEA members
  - As a reputable third party, IEA can write letters or testify for a member or on behalf of the industrial community at large
  - IEA meetings with legislators and regulators to influence policy
- Consultation with IEA staff and members on strategies to address environmental issues of importance to your company
  - IEA will seek out members with experience or knowledge in the topic area to collaborate or provide services as needed

### Networking

- Networking opportunities with environmental managers and leaders from 40 major companies within Southern California's manufacturing sector
  - More experienced Members serve as mentors to Members that are newer to the field
- Access to Members-only section of IEA website
  - Directory of Members
  - List of IEA Members on other Boards and Work-groups in the community
  - Newsletter archives
  - Presentations from Committee Meetings and Members Meetings
